The diagram shows a mechanical linkage system. A vertical bar is pivoted at its top end to a fixed horizontal support. A horizontal bar is attached to the vertical bar at a point below the pivot. The horizontal bar is also pivoted at its right end to a vertical bar. A wheel is mounted on the vertical bar, and a curved arrow indicates its rotation. A dashed line indicates the path of the end of the horizontal bar.

ᐊᓴᓯᓕᓐᓂᓴᓯᓕ ᓕᐃᓴᓴᓴ!
